SCHOOLS TO PLAN FOR TUBERCULOSIS

May Use Roofs of Cleveland and West Buildings for Classes for Sufferers.

Provision for children suffering from tuberculosis is likely to be made at the meeting of the Board of Education to-morrow afternoon, since the ruling of the health officials bars all tubercular children from class rooms there are normal children.

Roofs of the Grover Cleveland and West schools may be fitted up for these pupils. This could be done at a com-

pupils. This could be done at a comparatively small cost.

Among the woman teachers, now nearly all back for the conferences that begin Monday, are several who recently have been married.

Formerly, when a woman teacher married, she automatically resigned, but since the repeal of "rule 46," unless a teacher actually sends her resignation to the school officials, she remains on the rolls.

This, of course, means fewer appointments of Normal Bohool graduates. Just how many women teachers who were recently married will keep their positions is not definitely known, but school officials have learned, unofficially, of some who will do so.
